FOREWORD

Once again in North Carolina the harvest season finds our good earth giving abundantly of its fruits. Providence has been bountiful to us, and this is a good time to take inventory of what North Carolina is achieving not only in agriculture but in other major activities, such as education and industry, which combine to make our State one of the most progressive in the Union.

Our State Fair soon to be presented will give us an excellent opportunity to take stock, because the Fair will have arrayed for us, in concentrated, attractive display, the major accomplishments of which North Carolina is justifiably proud. There all North Carolinians can see the glory in the products and activities that make our State great. There they can catch a vision of tomorrow and the further progress and growth it will bring to our citizenry.

One of the most pleasurable aspects of the State Fair is the opportunity it gives us to see and talk with our fellow North Carolinians, and to enjoy the fellowship which makes our State one grand and glorious community of neighborly people.

I earnestly commend the State Fair of 1947 to every North Carolinian, and I hope record-breaking thousands of us will visit the exposition this fall.

Respectfully yours,

A handwritten signature in dark ink, reading "R. Gregg Cherry".

TO ALL NORTH CAROLINIANS

This has been a banner year for North Carolina in every phase of progressive, worthwhile activity. In education, industry and agriculture the State has made giant strides in its forward march toward a better, richer life for each and all of its citizens.

Our recent achievements, which are really the culmination of years of labor, research and diligence to duty, will be faithfully mirrored in our 1947 State Fair October 14-18. There, in all its grandeur, North Carolina will go on display in its best and brightest raiment.

In agriculture we are maintaining and even expanding the gains we made during the war, when North Carolina farmers performed miracles of production as one of their many contributions to victory. Our industry, augmented by many new plants, is at its all-time peak and still growing. North Carolina colleges and universities are educating more students than we dreamed it was possible to do a few years ago. Our younger citizens are forging ahead in farm organizations and other worthwhile youth movements, preparing themselves for the leadership that will be theirs in the tomorrow.

We look forward with pleasure to seeing you and your family at the 1947 State Fair.

Respectfully yours,

4. The management will use diligence to insure the safety of livestock and articles entered for exhibition or display after their arrival on the grounds, but under no circumstances will it be responsible for loss, injury, theft, or damage by fire, lightning, wind, or any other agency, to such livestock or article on exhibition or display.

13. Each Department will be under the special charge of its Director. He will oversee the arrangements of all articles offered for exhibition in his department and have control of space assigned to him. A firm will be regarded as one exhibitor.

7. Incomplete entries will be returned for correction, if there is time to do so. Exhibitors are urged to enter early and to use great care in filling out entry blanks, being particular to give all the information requested on the blanks, in clear terms, easily understood. Individual Farm Displays of North Carolina

J. WADE HENDRICKS, *Director*

The farm display must represent the individual farm and farm activity of the exhibitor. Each item in this display should be a miniature exposition and it should be the purpose of the exhibitor to make each item carry the proper relationship in showing a well balanced farm and home program.

The display should be balanced with not too much of any one thing being represented. It is not so desirable to just collect a number of items, but rather to make the exhibit reflect the entire farm operation.

Regardless of the score card the display should be attractive and appealing to the eye. It should prove educational so that practical lessons may be drawn from it by farmers and others with reference to farm and home management as well as production and marketing practices.

The premium money offered in this department is sufficient to warrant the best efforts of the exhibitor and exhibitors are assured down to the twelfth place of a premium which will help defray the expenses of bringing an exhibit to the fair.

Each exhibitor will be allotted space twenty running feet frontage and twelve feet depth. The sidewalls and back may be arranged as the exhibitor sees fit. The height of the exhibit shall not exceed ten feet. A neat sign identifying the farm and farmer should be displayed with each exhibit.

Entry blanks will be furnished upon request to the secretary of the fair. Your entry on proper blanks must be in by Saturday noon, October 11.

Each exhibitor will be required to file an affidavit with the Secretary of the Fair not later than noon Monday, October 13, that all agricultural products shown in the display were produced on his farm.

Note to Exhibitors: It will avoid confusion and add to the exhibitor's convenience if, so far as possible, entry blanks covering each exhibit to be entered for premiums be filled out in advance and mailed to the Secretary, North Carolina State Fair, Raleigh, N. C. When this is done the entry tags are made out in advance ready for the exhibitor on arrival. This avoids much waiting. These entry tags should be secured at the Entry Clerk's office and presented to the directors of the horticultural department at the same time exhibits are delivered to the department. Entry blanks and catalogs listing the premium classes can be secured upon application to the Secretary, Manager, N. C. State Fair, Raleigh, N. C. Read rules governing entries, exhibits and awards, pages 13 to 25.

The Department Directors and Exhibitors may have the exclusive use of the lawn in front of the Exhibit Buildings for parking until Tuesday morning, October 14.

All Exhibitors who will mail in their entry blanks prior to October 13 will find their entry tags made and ready for them upon arrival. Please give rural route number or city address on entry blank.

In sending in fruit for exhibition, select only those specimens that are perfect in form and color, and free from all insect and fungus blemishes. Do not knock or shake the fruit from the tree, but pick each specimen by hand, taking care not to pull out the stem.

Fruit should be exhibited as nearly as possible in its natural state, and no preference will be given highly polished fruit by the judges.

Fruit to be exhibited in trays, and in plates, should be carefully wrapped and packed. Each fruit should be wrapped separately in paper and packed firmly in box or barrel, taking care to avoid bruising. Label each variety plainly and put in paper dividers to keep varieties separated. Do not use hay, fodder, excelsior, or any other dusty material in packing. Nail up firmly.

IMPORTANT — READ

If exhibit must be shipped, address each package plainly to "State Fair, Department of Horticulture, Raleigh, N. C." Each package should be plainly marked with the name and address of the exhibitor. Each package should be plainly marked giving the class in which contents are entered.

PLATES. Plates for the variety exhibits of fruits will be furnished free by the Fair. A perfect plate of fruit should contain five specimens, and no more, characteristic of the variety, with stems attached, of high color, uniform, marketable size, free from cuts and bruises and all insect and fungus blemishes. If additional specimens are sent in by growers, the Directors will select and place on exhibit the best possible plate to be made from all the specimens submitted. Shipping six apples is recommended for a plate of 5 apples.

TRAYS. The dimensions of the trays are $11\frac{1}{2}$ x 18 x 3 inches inside measurements. The exhibitor should make a tray of the required dimensions and pack each variety to be displayed in this class, in order to know how many apples are needed. Four or five extra apples per tray should be sent in order to allow for rot and damage in transit.

BASKETS. Commercial basket apples should be graded to uniform size, high color, freedom from bruises, insects and fungus blemishes. They should be properly packed and ring faced in standard bushel baskets.

GENERAL RULES. A premium offered for a general collection of fruit will not be awarded to a mere pile of apples, or other fruit, but must be a real collection, arranged on plates and all correctly labeled, and no fruit will be counted in a collection unless it is a fair specimen of the variety. No trashy fruit of any kind will be counted merely to make up a collection. A premium for the best collection of grapes, peaches or any other fruit will not be awarded for a mere number, but to the quality of the exhibit mainly. Fruit entered under the heading "Any Other Fruit" should be named, if possible, by the exhibitor.

The Directors and judges may withhold premiums in any class where the article is not worthy. Exhibitors entering fruit which has been shown before or at other fairs will be penalized by the judges.

NORTH CAROLINA STATE FAIR

No article entered for competition in any one class will be permitted to compete for a premium in any other class, excepting sweepstakes. An exhibitor cannot compete for more than one prize in any class.

No attention will be paid by the committee to any fruit or other exhibit that is not arranged in accordance with these rules.

Fruit if shipped must arrive at the Fairgrounds not later than Monday at 10 a. m. of Fair Week, charges prepaid.

The awards for fruits will be made as soon as possible after the opening of the Fair.

No exhibitor will be allowed to discuss exhibits with the judges, or to interfere in any way while the judges are at work.

All fruits shown for premiums remain in place until the close of the Fair, at which time they must be claimed by exhibitor by presenting his entry tag stub as a claim check. Exhibits unclaimed by 10 p. m. Saturday of Fair week will be considered unwanted and the Directors will not be responsible for exhibits after that time.

In the nomenclature of fruits, the names adopted by the American Pomological Society shall rule, and no variety will be accepted that has not been admitted to their catalogue, except in the case of seedlings never before exhibited.

Read Rules Governing Entries, Exhibits and Awards, pages 13 to 25.

IMPORTANT — READ

If exhibit is shipped in, address each package plainly to "N. C. State Fair, Department of Horticulture, Raleigh, N. C." Each package should be plainly marked, giving the class numbers in which contents are entered and name and address of party making entry.

Entry blank covering the shipments should be addressed to the Secretary of the Fair and be mailed, preferably, in advance of shipment.

All vegetables exhibited must be grown by exhibitor.

All varieties of vegetables entered for premiums should be well selected as to uniformity, freedom from blemishes, and trueness to type. Premiums offered for the best collection will not be awarded solely for the greatest number of varieties, but mainly for the quality. The Directors or Judge may withhold premiums in any case where the article is of inferior quality. All exhibits must be in place and arranged in the space assigned to this department by 6:00 P. M., Monday of Fair Week.

Exhibitors should make sure to retain the stub of their entry tags as their claim check and present same and claim exhibit at the end of the fair. Vegetable exhibits must be claimed between 4:00 P. M. and 10:00 P. M. on Saturday of Fair Week. Vegetable exhibits unclaimed Saturday evening of fair week by 10:00 P. M. will be considered unwanted. The fair will not be responsible for them after this time.

Plants and Flowers

Exhibits must be grown in North Carolina

Entries close on cut flowers 12:00 Noon, Tuesday, October 14, 1947

Entries of potted plants, bulbs, gourds, etc., close at 12:00 Noon
on Monday, October 13, 1947

If necessary, exhibits may be shipped to the State Fair, Department of Horticulture, Raleigh, N. C., but flower exhibits are generally brought to the Fair by exhibitors, owing to their perishable nature. If shipped, they should be packed carefully and the shipment should be accompanied by an entry blank properly filled out and addressed to the State Fair. Catalogs and entry blanks may be obtained from the Secretary's office or on request by mail to the Secretary. Even when flowers or plants are being brought to the Fair, entries should be made in advance by mail addressed to the Secretary, N. C. State Fair, Raleigh, N. C., who will gladly furnish entry blanks for the purpose. When exhibits are brought to the Fair the exhibitor should call first at the desk of the entry clerk and get entry tags, then the exhibits and tags corresponding should be delivered to the Directors of the Department, who will put the exhibit on display. It will greatly facilitate matters for the exhibitor as well as the Fair if entries are made in advance by mail, as this permits writing up tags before the rush and having them ready for the exhibitor on arrival at the entry clerk's desk. The time for closing entries is set late (Tuesday noon) to accommodate exhibitors of cut flowers. Other exhibits, such as potted plants, bulbs, etc., should be entered earlier—not later than noon Monday of Fair Week. Exhibitors should be sure to get their claim check as they turn over exhibits to the Department. These claim checks should be carefully kept by the exhibitor and brought back at the end of the Fair for use in claiming exhibits. The Directors of the Department have no other means of identifying exhibitors and cannot be expected to give out exhibits unless claim checks are presented. Exhibits should be claimed between 4:00 P. M. and 10:00 P. M. on Saturday of Fair Week.

CUT FLOWERS

Cut flowers must be in place ready for judging by 12:00 o'clock Tuesday of Fair Week soon after which they will be judged. In bringing flowers to the Fair, especially dahlias, they should be carefully packed in boxes without crowding in order to preserve the petals against injury. Damage to petals, especially in the case of dahlias and roses, may affect the score when judging. Flowers should be kept from automobile drafts as much as possible when transporting. In judging classes 185 to 210 inclusive, consideration will be given to the following points: (1) The artistic arrangement of the flowers in the container—60 points; (2) The quality and condition of the flowers—40 points. Emphasis will not be placed on the rarity of the flowers exhibited. In these classes the exhibits must conform to dimensions or conditions stated. The dimensions refer to flowers, baskets, basket handle and any ribbon or other attachment. In other words, the dimensions over all. If any dimension is greater or less than class calls for, the judges will have to disqualify the entry. Exhibitors are cautioned to see that their baskets are entered in the class conforming to their size. In classes 199 to 201 the exhibit should be appropriate both as to breadth and height over all, including container, for the size of table stated. The judges will consider whether the exhibit is appropriate for its class as well as considering the artistic arrangement of flowers in the container and the quality and condition of the flowers. Except in classes 185 thru 191 inclusive, all cut flowers will be exhibited in vases.

MISCELLANEOUS

This class is for the purpose of stimulating new interest. Entries should be in place by 4:00 P. M. Monday of Fair Week. Dish gardens may be arranged on plates, platters, trays or dishes of any reasonable size. They will be judged on the basis of the craftsmanship of the exhibitor, the artistic qualities of the exhibit and the quality of materials used. The exhibit may represent Japanese gardens, landscapes, farms properly planted, homes or any other feature. Plant materials should predominate, but any kind of material can be used. To the extent necessary materials such as mirrors, rocks, ornaments, wood, etc., may be used. It is suggested that the exhibitor limit his exhibit to reasonable size and no exhibit should have any dimension greater than 36 inches.

The foregoing suggestions apply also to terrariums. The type of exhibit desired in this class is much like the dish gardens, except that slightly different materials should be used, the materials being placed inside a glass container covered for the purpose of maintaining moist conditions and plants preferring such moist conditions, such as mosses, ferns, etc., should be used. Credit will be given by the judges to the craftsmanship, the condition of plant materials, the number of kinds of plants in the exhibit, and the general artistic values of same. These exhibits should have unity, variety, propriety, coherence and finish.

Under the entry for meritorious novelty or floral exhibit any plant or flower or other related novelty can be exhibited. Each will be judged first as to its merit or quality in such a class and if considered meritorious by the judges will then be judged in competition with any other meritorious entry.

SYMBOLS OF FERTILITY

SINCE ancient times, the "Horn of Plenty" has stood as a symbol of the Abundance that comes only from fertile fields.

For farmers of today, there is no more reliable symbol of fertility than the S-D Trade Mark. It stands for the finest in fertilizers, for fertilizers skillfully made, from choice raw materials. But what is just as important, the big S-D always stands for a "Square Deal" too.

"Orange" for Tobacco

There is no finer tobacco fertilizer made than famous S-D "Orange". Same high quality year after year.

Use **KASCO** Egg Producer

Protein varies greatly in quality. Some proteins are converted easily and swiftly by the hen's body for maintaining weight and eggs while other proteins have little or no "working" value.

KASCO EGG PRODUCER with **Bio PROTEINS** supplies these "working" proteins. In test after test, Kasco let the birds themselves decide which protein combinations would produce the most eggs. Different protein combinations were fed—egg production compared—and finally the result—**Bio PROTEINS**. Yes, only Kasco offers you **Bio PROTEINS**. Order Kasco Egg Producer with **Bio PROTEINS** today.

RULES AND REGULATIONS ISSUED BY COMMISSIONER OF AGRICULTURE IN REFERENCE TO POULTRY SHOWS

Detach and Mail Certificate in Back of Book
with Your Poultry Entries.

By authority of a resolution adopted by the Board of Agriculture on January 30, 1947, I have investigated the advisability of holding live poultry shows in North Carolina. I hereby declare that such shows may be held under the rules and regulations set forth below.

1. All exhibitors of live poultry at any exhibition or show shall sign a certificate printed on or attached to the entry blank, certifying that the exhibitor is a resident of North Carolina and that the birds have actually been in the State of North Carolina and in his possession for at least thirty days prior to the show, and that to the best of his knowledge and belief that said poultry are from a flock or flocks that are free of any evidence of Newcastle disease or any other infectious or transmissible disease and were not recently exposed to same. Said certificate shall be issued within five days of the opening of the show and shall show full name and address of exhibitor and description of birds.

2. All crates or other containers, and vehicles used for transporting the poultry to a show, shall be thoroughly cleaned and disinfected before being used for such purposes.

3. No birds shall be admitted to a show unless they are apparently healthy and are accompanied by a certificate as listed above.

4. During continuance of the show, all birds shall be inspected at least daily by someone designated by the show management and approved by the State Veterinarian.

5. Birds showing evidence of disease during a show shall be properly segregated and cared for, in so far as practical, and promptly reported to the Fair management and to the State Veterinarian. Such diseased or exposed birds shall be disposed of so as to prevent the spread of disease and in a manner approved by the State Veterinarian.

6. Should disease of a highly contagious nature, such as Newcastle disease, become manifest during a show and should it be deemed advisable by the State Veterinarian to slaughter affected or exposed birds, the State Veterinarian assumes no responsibility for any loss sustained. Any salvage derived therefrom shall go to the owner of the respective poultry involved.

7. Since all birds returned from a show are potential sources of infection to other birds, they shall be isolated immediately after their return separate and apart from all other birds. This isolation shall be maintained until it has been established that the birds are not carriers of disease producing agents as may be determined by exposure of a few susceptible birds to direct contact with them.

These rules and regulations shall be effective on and after June 10, 1947.

W. KERR SCOTT, *Commissioner.*

OUTSTANDING CROP PRODUCERS

Crop results season after season clearly show the extra crop-producing power of AGRICO, the Nation's Leading Fertilizer. Try some Agrico and see for yourself the all-important difference it can make in yield and quality. And please remember—

There's an Agrico for Each Crop

For top-dressing pastures and legumes . . . before seeding permanent pastures and alfalfa . . . before turning cover crops under in Spring, apply 18% NORMAL Superphosphate—it's more economical per unit of available Phosphoric Acid, and also supplies Calcium and Sulphur, valuable plant foods.

RULES AND REGULATIONS GOVERNING CLASSES**(Read Carefully)**

1. Entries in this department will be limited to North Carolina. Breeders and fanciers are cordially invited.

2. No carload or professional string-man exhibit will be allowed to compete for premiums, except those who are owners and breeders of the birds they exhibit, and maintain a breeding establishment sufficient to raise the birds so exhibited.

NOTE: This rule will not be construed to debar any legitimate number of exhibitors from combining and chartering a car to transport their exhibits if by so doing they can save freight and other expenses, but it will be enforced against those it is intended to debar.

3. All entries must be made with Dr. J. S. Dorton, manager, not later than Saturday, October 6 at 6 o'clock p. m., and entry fees paid in full at the time of entry. Please note carefully amount of entry fees required in various classes. Birds must reach Raleigh not later than 10 a. m. Monday, October 13. Judging will begin promptly at 9 a. m. Tuesday. All birds not in place at that time will be debarred from competition.

4. All shipments of fowls should be plainly marked as to breed, variety, and number of birds in each coop; legband numbers should be noted on entry blanks. The State Fair will not be responsible for errors in cooping or handling birds when this rule has not been complied with.

5. Shipments of fowls should be addressed to Poultry Department, N. C. State Fair, Raleigh, N. C., with all express charges prepaid. They will receive proper attention and be returned to owners at close of Fair, unless other shipping instructions are given. Birds showing disease will not be accepted.

6. The American Standard of Perfection (revised edition) will be the guide of the judges in awarding premiums.

7. The premiums will be paid only on standard varieties listed in this catalog and then on worthy specimens only.

8. The State Fair will employ a competent staff of judges, and their decisions will be final. Protest will be entertained only when accompanied by a fee of \$5.00, this fee to be forfeited unless protest is sustained by a majority of the judging staff.

9. All birds are entered at the risk of owners. The State Fair will not be responsible for loss by fire or otherwise, but will exercise all possible vigilance in the care of exhibits at the Exhibit Hall. The management reserves the right to coop one or more birds of the same variety and belonging to the same person together if absolutely necessary. In no case will two male birds be placed in the same coop.

10. After judging, the management will endeavor to place on the coops any advertising matter supplied by the exhibitor for his coop.

11. Premiums will be paid only to worthy specimens. To win first premium a bird must score at least 88 points, second premium 87

FOUR DAUGHTERS of HIGH POINT PRINCE MAXIM

Prizewinners

Producers

Reproducers

These four daughters of High Point Prince Maxim, our great foundation sire, were not only blue ribbon winners in the show ring, but, more important, they have been great producers at the pail. Their sons and daughters have also carried on.

The get of this great sire have won the coveted blue ribbon at the most important shows in the United States and Canada. Seventy-six of his daughters have Advanced Register records; ten have official records exceeding 800 lbs. of butterfat in a year. No other Guernsey bull, living or dead, has equalled or even approached this record.

We usually have 50 to 60 well bred young bulls for sale as herd sires each year at reasonable prices to North Carolina farmers who want to improve the production and type of their milking cows. These bulls are by proved sires and out of cows that have good Advanced Register records.

Write us about your needs. Regardless of how much or how little you may have to spend for a bull, we will try to fill your order.

Feed passes from crop to vent in about two hours time so digestive juices have little time to absorb the nutritional value of feed.
Gran-I-Grit in the gizzard grinds feed thoroughly so it can be more rapidly and completely absorbed by the bloodstream. By thus preventing feed waste from undigested particles, Gran-I-Grit often pays for itself many times over as well as helps prevent digestive disturbances.

WHAT YOU REALLY BUY

When you buy V-C Fertilizers, you buy bigger yields for your land, labor and machinery, at extremely low cost for the extra crops produced. By helping each acre of your farm yield as much as several poorly-fertilized scrub acres would yield, V-C Fertilizers save work, worry and expense. This means more leisure time for you and your family . . . and more money for you to make your farm a more attractive place to live.

Virginia-Carolina Chemical Corporation manufactures V-C Fertilizers balanced to meet the particular plantfood needs of every crop you grow. But what you really get, when you buy V-C Fertilizers, is more than just a mixture of fertilizer materials in a bag. What you are really buying is the more abundant harvest that makes farming a better-paying business.

The Home Demonstration Division of The North Carolina Agricultural Extension Service, N. C. State College, has grown from the original canning clubs to include all phases of homemaking: Foods and Nutrition, Food Conservation, Clothing, Housing, House Furnishings, Home Management, and Family Relationships. Each is equally important in developing a well-balanced home in which happy, healthy people are to live.

It is the purpose of these exhibits to show how each of these phases of home-making can strengthen the smallest unit of the world and the home, and contribute toward building a better world.

4-H CLUB HOMEMAKING DIVISION

The exhibits shown in this department represent the results of 4-H home-making demonstrations. The exhibitors have been selected on a basis of outstanding project work and must have excelled first in their own county and district.

The group system of judging will be used, that is, all exhibits will be divided into three or more groups, such as Excellent or Blue Ribbon Group; Good, or Red Ribbon Group; and Creditable, or White Ribbon Group. The prize money available will be divided so that the blue ribbon winners in each class will receive an equal amount; red ribbon winners will receive less money; the white ribbon winners a smaller amount than the red; and exhibits placed in a lower group will receive no money.

In this way, all exhibitors may know how their products compare with products of other exhibitors.

CLOTHING

The Complete Costume

Ten exhibits from the State will be shown in this class, two from each Home Demonstration District. The exhibitors must have been selected within the county that they represent in such a manner as to give every club girl within that county an opportunity to participate. - c. An itemized cost statement of the costume, with cost of each item listed separately.

RULES GOVERNING EXHIBITS

1. Any county or city administrative unit may submit one application. The exhibit may represent the work of one or more schools in the administrative unit.

2. In so far as possible, each exhibit should reflect a central theme. The exhibit may represent a unit of work from a classroom, the work of one or more grades, or the school as a whole, provided there is a unifying element. Booths depicting the work of the school in developing self-realization, human relationships, economic efficiency, or civic responsibility will be especially appropriate. For example, a social studies unit designed to give students a clearer concept of community living, with emphasis on community resources, might lend itself very well to a unified theme. Art as a means of self-realization would likewise be apropos. Units on health, history, science, language arts, guidance and work in other areas will fit in well with a theme if the more pertinent phases of the work are shown. It is hoped that the exhibits as a whole will show that the public school is the most effective agency for raising the level of living in North Carolina.

3. Applications will be considered in order received but the committee in charge of applications reserves the right to reject any application received in order that the different phases of school work may be exhibited, due notice of rejection or acceptance of the application to be sent the applicant.

4. Counties and cities desiring to submit winning exhibits of local fairs may make a blanket application, the name of the school to be supplied not later than October 8.

5. Schools accepted by the committee will be furnished the necessary additional information and a diagram giving dimensions of the exhibition booths.

6. Each school exhibiting will be responsible for all expense in connection with preparing the exhibit including transportation. The State Fair Committee will prepare the booths and make general decorations, but all other expense in connection with the exhibits will be borne by the school exhibiting.

7. Applications should be filed not later than September 15, on blanks furnished by the State Department of Public Instruction, Raleigh, N. C.

EXTENSION WORK WITH NEGROES

Department Q

R. E. JONES, J. W. JEFFRIES AND MRS. D. F. LOWE, *Directors*

Agricultural Extension work among Negroes in North Carolina is 37 years old. It had its beginning in North Carolina during the year 1910, and from one county farm agent, we have grown to 97 farm and home agents in 48 counties.

There are 30,000 Negro boys and girls enrolled in 4-H Clubs in the 48 counties, whereas there are approximately 150,000 boys and girls in these counties between the ages of 10 and 20 years. Approximately 18,000 farm women are Home Demonstration Club members in the 48 counties.

The following exhibits will emphasize some of the more fundamental programs carried to farm people and the contribution that these people are making toward raising their own standard of living, making use of better practices in farming and home making. We firmly believe that the participation of Negro farm families in the Agricultural Extension Program will help to make better farm families and will make for better citizenship among rural people, and will contribute to the progress that North Carolina is making in agriculture.

HOME DEMONSTRATION EXHIBITS

Miss W. R. LAWS, *In Charge*

Good health practices and conditions affect the farm home. The major emphasis in Home Demonstration Club work in 1947 centered around programs relating to sanitation, food production and preparation, clothing, housing and home management. The exhibits below will show some of the fundamental methods and practices carried out in the Home Demonstration Program to bring about better health conditions among rural families in North Carolina.

4-H CLUB EDUCATIONAL EXHIBITS

W. C. COOPER, *In Charge*

The future of Negroes in agriculture in North Carolina will be largely dependent upon the attitudes, skills and appreciation that the farm boy and girl develops toward agriculture and home making.

The principles, practices and methods employed in 4-H Club work emphasizes such practical values as: Economic crop and livestock production, increased acre yields, value of adapted varieties, best cultivation and fertilization methods, and the keeping of accurate records of work done. The exhibits below point out some of the results being accomplished by Negro club members in poultry, sweet potatoes and swine projects. Approximately 15 per cent of the enrollment in Negro 4-H Clubs are in these projects. Thirty-four different farm and home projects are carried by club members in North Carolina.

1. The costume should include dress, hat, shoes and socks or hose. The dress should have been made by the girl. Hat, shoes and socks must have been selected by the exhibitor.

2. The following information should be sent to the person in charge at A. & T. College, one week prior to the fair.

a. An itemized cost statement of the costume, with cost of each item listed separately.

b. A statement of the girl's age, height, weight, type, build and complexion.

3. The costume should be chosen for school.

Awards will be made on the basis of the Danish System of judging.

Premiums will be divided equally among the nine participating counties.

FARM MACHINERY AND TRACTORS DEPARTMENT

Department R

DAVID S. WEAVER, *Director, State College, Raleigh, N. C.*

The substitution of farm machinery and tractors for hand labor during the war period has demonstrated clearly to the farmers of North Carolina the possibility of using labor-saving equipment in most of our farm operations. The shortage of good mules, with the consequent high price, has further directed the attention of farmers to the advantages of tractors for field work. The development of smaller and smaller tractors, very versatile in nature and selling at reduced prices, has been another contributing factor to the greatly increased tractor ownership in the State. Although North Carolina ranks very high in the list of States in the total value of farm crops, we are still in a very low position when considered on the per capita income of farm workers. Undoubtedly this low ranking may be largely attributed to the fact that on the whole our farmers are not well equipped with modern, up-to-date, and efficient machinery.

Practically every farm machinery manufacturer of any size is concentrating on the future market in the southeast because they, together with other leading industrialists and thinkers of the Nation, realize that to a very large extent, the future of the Nation, in its ability to produce raw materials, lies in the South.

The coming State Fair offers a wonderful opportunity for manufacturers of tractors and farm machinery to bring to the attention of thousands of rural visitors the many advantages in modern equipment use, and to point out the improvement in design and efficiency of the latest models. A large area has been set aside on the fair grounds in a most advantageous location for the display of tractors and farm machinery. This means that this prominent position will bring practically every fair visitor to the exhibit of farm machinery. An area for demonstrating tractors, machinery, and trucks is available. Manufacturers may obtain space for displaying their products by writing the Manager of North Carolina State Fair, Raleigh, North Carolina. This space is available at very reasonable rates and applications should be filed as early as possible.

All exhibits must be completed for public inspection by Monday, October 13, 1947.

HOME MADE LABOR SAVING EQUIPMENT

Many North Carolina farmers and others through their ingenuity and need for additional labor saving equipment have constructed for their own use many machines and devices, such as grain elevators, haying equipment, power saws, lawn mowers, dairy barn and poultry house equipment, lime spreaders, power lifts, harvesting and cleaning equipment, automatic feeding and watering devices, burglar alarms, etc. Many of these devices deserve recognition and will add materially to the usual farm machinery exhibit.

General Rules

No entry fee will be charged in this Department. Where more than one entry in a class is made by an individual, only one premium money will be paid, provided the classification is filled. If not filled, next place money will be paid.

Entries should, if possible, be full size, working models. However, small size scale models of equipment, too large to conveniently transport will be accepted.

Entries will be judged on originality in design, simplicity, and usefulness.
